

SA & NT BRANCH ACTIVITIES

The IAME are proud to announce a night with....

KPM MOTORSPORT ROAD & RACE

The night will consist of the latest model Commodore and Falcon on the Dyno machine.

The Technicians at KPM have the expertise and equipment to tune a wide range of vehicles, using KPM's own dynamometer, they are able to accurately tune newer and more modified cars through to standard, regular vehicles and even classics and collectables.

Whether it be remapping a car's standard tune, tuning an aftermarket computer or perhaps rejetting carburettors, KPM have the capability to get the job done. Their dyno provides accurate information about how a car is running which allows them to tune or repair a vehicle quickly and efficiently for optimum performance and economy.

KPM customers can be assured that our Dyno is only operated by highly trained, qualified Technicians who provide accurate performance and economy readouts necessary for professional tuning, performance, motorsport and repair work
