

## AUR 20218 - Certificate II

# Automotive Air Conditioning Technology

Version 1 – 150919

The IAME is a Registered Training Organisation (RTO 90409) and conducts Recognition of Prior Learning (RPL) assessment process for AUR 20218 – Certificate II in Automotive Air Conditioning Technology nationally.

If you are involved in the Automotive Industry, have a Trade Qualification or are an Experienced Person who is currently working in the trade and want to become involved in servicing or repairing air conditioning systems, then the Institute of Automotive Mechanical Engineers can assist you in attaining the Certificate II or Statement of Attainment required for Automotive Air Conditioning licencing.

The RPL assessment process allows you to gain recognition for knowledge and skills that you have already acquired through previous studies, informal courses, your work history, or are able to demonstrate.

Once you have provided sufficient evidence and been assessed, candidates will be issued with a Statement of Attainment in those units where sufficient evidence is able to determine competence. If sufficient and appropriate units are achieved according to the packaging rule, a qualification will be issued.

If you would like more information about the RPL process or your eligibility to be assessed then simply give us a call and we can and we can guide you through the steps required.

To achieve the AUR20218 Certificate II in Automotive Air Conditioning Technology you will need to provide evidence to be assessed on the following competencies:

### CORE COMPETENCIES

|           |   |
|-----------|---|
| AURASA002 | Apply safe working practices in an automotive workplace                         |
| AURAEA002 | Apply environmental and sustainability best practice in an automotive workplace |
| AURETR012 | Test and repair basic electrical circuits                                       |
| AURETU003 | Service air conditioning and HVAC systems                                       |
| AURETU004 | Diagnose and repair air conditioning and HVAC systems                           |
| AURTTA018 | Carry out diagnostic procedures   |

### ELECTIVE COMPETENCIES

|           |  |
|-----------|--|
| AURTTK002 | Use and maintain tools and equipment in an automotive workplace    |
| AURTTA004 | Carry out servicing operations                                     |
| AURITE004 | Inspect and service engines  |
| AURITC001 | Inspect and service cooling systems                                |
| AURTTA009 | Carry out mechanical pre-repair operations                         |
| AURVTA001 | Prepare vehicles for customer use                                  |
| AURACA001 | Respond to customer needs and enquiries in an automotive workplace |

#### Scope:

Blended

Recognised Prior Learning (RPL) and Training Assessment (T&A)

#### Courses held in:

- Western Australia

#### Enrolment Cost:

Member: \$1,150.00

Non-Member: \$1,300.00
